

# INSTRUCTIONS FOR USE

## TB-dito Standard

### The hammer for tree inspection

### INTENDED USE:

TB-dito is a hammer-like multifunctional tool for inspecting trees. The professional know-how of tree inspectors and arborists is necessary for correct use. TB-dito is with the care that is appropriate for a measuring tool, as we attached great importance to low weight in the design. weight. The forcible removal of vegetation from trees, trees etc. can lead to structural damage/breakage.

### MAINTENANCE AND CARE:

#### Metalparts

Remove coarse dirt with a brush.

#### Parts of wood

The wooden handle has been elaborately sealed, including with 8 coats of wood oil (Tru Oil). Regular maintenance is extremely important for durability. The protective layer wears off and must be touched up at least once a year with 2 thin coats. Earlier if damaged.

The protective coating on the face and the conical shaft on the appliance head wears out more quickly with frequent use. These areas should be re-oiled at shorter intervals, e.g. every 2-3 months.

#### Leather (carrier/holster)

Apply leather wax (SNO-Seal) to the heated leather and let it soak in. Remove any residue.

#### Transport in the vehiclew

In summer in particular, there is a risk that the wooden handle will dry out considerably if the humidity is low and the air conditioning is active. The device must be supplied with moisture in such conditions. For example, you can store the hammer together with a slightly damp sponge in a zip bag in the vehicle. To ensure that this moment is a distant memory, it is important to regularly oil the face and the conical shaft on the tool head.

#### Guarantee

24 months

#### Disposal

Is this really supposed to happen? We take it all back.

## SAFETY INFORMATION

There is a risk of impact, stabbing and cutting injuries as well as flying material, use safety goggles if necessary.

When using the impact part, ensure that area for the fin is clear.

In the event of structural damage, the device must be withdrawn from use.

The appliance is not a toy and must be kept out of the reach of children.
